AUSTRALIA—SOUTH COAST.

PORT PHILLIP.

*Dredging operations in South Channel.*

The following Notice to Mariners (No. 151, dated 9th May 1889), issued by the British Admiralty, is republished.

The Government of Victoria has given notice that on or about 1st April 1889 dredging operations would be commenced in South Channel, Port Phillip, beginning at a point  $2\frac{1}{2}$  cables eastward from Pile light-house, and extending from such point 6 cables westward.

\*During the progress of deepening the channel, and until further notice, three pile buoys will be moored in line to mark the south side of the proposed new cutting, and the dredger will be moored so as to leave both night and day a clear channel 200 feet wide northward of her.

During the night the dredger exhibits three lights forward and three lights aft, placed vertically not less than 6 feet apart, the lowest lights being 20 feet above the sea. The highest and lowest of these lights are fixed white, the middle lights red.

NOTE.—Mariners navigating in South Channel near the dredger should use the passage northward of her and proceed quite slow.

##### CARIMATA STRAIT.

###### *Existence of Hector Bank.*

THE British Admiralty has given notice (Notice to Mariners No. 157 of 1889) that information has been received that Mr. Madge, commanding the British Telegraph steamship *Recorder*, has reported having in January 1889 passed over the position formerly assigned to Hector Bank (removed from the Admiralty Charts in 1885 in consequence of its having been unsuccessfully searched for by a Netherlands surveying vessel in the southern entrance to Carimata Strait, and obtained soundings of 7 to 8 fathoms, the extent of the bank being estimated as about 3 miles).

Mr. Madge states that on previous occasions, when commanding the British Telegraph steamship *Agnes*, he had passed over Hector Bank three times, the least depth then found being 5 fathoms.

Consequent on the above, Hector Bank, with a least depth of  $3\frac{1}{2}$  fathoms, and 6 to 8 fathoms around (as originally reported), has been replaced on the Admiralty Charts in lat.  $3^{\circ} 45\frac{1}{2}'$  S., long.  $110^{\circ} 8\frac{1}{2}'$  E.

The light-vessel is moored with Green Island bearing S.S.W., distant 6½ cables.

CHINA SEA.

*Bank North-West of Pratas Island.*

THE British Admiralty has given Notice (No. 166 of 1889) that information has been received from Captain the Hon'ble F. C. P. Vereker, H. M. Surveying Vessel *Rambler*, that whilst proceeding to the vicinity of the dangers reported by the *Dorothea*, *Alden Besse*, and *Cyclone* (Hassack shoals), in order to search for them, a bank (*Vereker bank*) was struck, lying about 45 miles north-westward of Pratas Island:—

This bank of coral and shells, with a least depth found of 39 fathoms, is circular in shape, with a diameter, within the 100-fathoms line, of about 8 miles.

Position of 39 fathoms (situated about two miles westward of the centre of the bank), lat. 21° 5' N., long. 115° 59' E.

CAUTION.—As the examination of this bank only extended over two days, and the bank is of large area, it cannot be considered certain that no small dangerous patch exists. Currents are strong and variable in the locality, and it is by no means improbable that the positions given by the *Dorothea* and *Alden Besse*, which agree in latitude with that of Vereker bank, may be many miles in error in longitude.

Until thoroughly searched, this bank should therefore be regarded as a danger.

No indication of shoaling was found near the Hassack shoal or *Dorothea* but bad weather prevented a complete search being made.

Western summit of Benlân great hill in line with Pulo Pitjingit summit.

Kwas hill summit in line with south extreme of Basing island.

North extreme of Sembolang point in line with south extreme of Soré island.

Also, that the black buoy previously marking the shoal, lying about 7 cables to the south-eastward of Soré island, has been altered in position, and now marks the abovementioned shoal.

*Rhio outer road—non-existence of Shoal and withdrawal of buoy.*

Also, dated 13th April 1889, that in consequence of an unsuccessful search having been made for the 3-fathoms shoal lying about one mile south-westward of Pulo Pitjingit, Rhio outer road, it has been removed from the charts.

NOTICE TO MARINERS—(No. 67.)

AFRICA—EAST COAST.

MOZAMBIQUE CHANNEL.

*Amended particulars of St. Lazarus Bank.*

The following Notice to Mariners (No. 178 of 1889) issued by the British Admiralty is republished:—

An error of five miles having crept into the latitudes quoted in former Notice to Mariners on this subject, No. 107 of 1889, the amended particulars are herein republished, and the former Notice is hereby cancelled.

The following information relating to St. Lazarus bank has been received from Commander T. F. Pullen, being the result of an examination made by H. M. Surveying Vessel *Stork* and her boats extending over six days, from 3rd to 8th February 1889:—

The area of the bank within the depths of 100 fathoms is of oblong shape, 11 miles long north and south, with an extreme breadth of 6 miles, and is included between the parallels of  $12^{\circ} 7'$  and  $12^{\circ} 17'$  S., and long.  $41^{\circ} 20'$  and  $41^{\circ} 26\frac{1}{2}'$  E.

The general depth was found to be under 20 fathoms, the nature of the bottom being sand and coral. The shoalest part within the depth of 10 fathoms is near the northern end of the bank, and is about 4 miles long in a north-west direction and 2 miles broad; the least depth found of  $3\frac{1}{2}$  fathoms being confined to a small coral patch in lat.  $12^{\circ} 8'$  S., long.  $41^{\circ} 21\frac{3}{4}'$  E.

Beyond the depth of 100 fathoms the soundings increase rapidly; at 6 miles north-east of the shoalest part, 1080 fathoms were found, and at 14 and 25 miles eastward of the shoal part 1308 and 1131 fathoms were obtained.

A regular tide was observed when at anchor on the bank, the flood setting E.S.E. about 4 hours, and the ebb W.N.W. about 7 hours, with about half an hour slack water; the strength at springs was 2 knots; the rise and fall approximately 12 feet. It is probable that at a little distance from the bank, and when out of the influence of the tidal streams that exist upon it, the currents vary in direction and velocity at different times of the year.

Fish in abundance were caught on the bank.

Having regard to the nature of this examination as detailed by Commander Pullen, it is considered that the several shoal soundings hitherto reported on or near St. Lazarus bank fall within the area assigned to it by H. M. S. *Stork*.

(The bearings are Magnetic. Variation  $12^{\circ}$  Westerly in 1889.)

This cancels Notice to Mariners issued by this Office No. 42, dated 11th May 1889.

The Government of Victoria has given notice that on or about 1st April 1889 dredging operations would be commenced in South Channel, Port Phillip, beginning at a point  $2\frac{1}{2}$  cables eastward from Pile light-house, and extending from such point 6 cables westward.

During the night the dredger exhibits three lights forward and three lights aft, placed vertically not less than 6 feet apart, the lowest lights being 20 feet above the sea. The highest and lowest of these lights are fixed *white*, the middle lights *red*.

NOTE.—Mariners navigating in South Channel near the dredger should use the passage northward of her and proceed quite slow.

CARIMATA STRAIT.

*Existence of Hector Bank.*

THE British Admiralty has given notice (Notice to Mariners No. 157 of 1889) that information has been received that Mr. Madge, commanding the British Telegraph steamship *Recorder*, has reported having in January 1889 passed over the position formerly assigned to Hector Bank (removed from the Admiralty Charts in 1885 in consequence of its having been unsuccessfully searched for by a Netherlands surveying vessel) in the southern entrance to Carimata Strait, and obtained soundings of 7 to 8 fathoms, the extent of the bank being estimated as about 3 miles.

Mr. Madge states that on previous occasions, when commanding the British Telegraph steamship *Agave*, he had passed over Hector Bank three times, the least depth then found being 5 fathoms.

Consequent on the above, Hector Bank, with a least depth of  $8\frac{1}{2}$  fathoms, and 6 to 8 fathoms around (as originally reported), has been replaced on the Admiralty Charts in lat.  $3^{\circ} 45\frac{1}{2}'$  S., long.  $110^{\circ} 8\frac{1}{2}'$  E.

CHINA SEA.

*Bank North-West of Pratas Island.*

THE British Admiralty has given Notice (No. 166 of 1889) that information has been received from Captain the Hon'ble F. C. P. Vereker, H. M. Surveying Vessel *Rambler*, that whilst proceeding to the vicinity of the dangers reported by the *Dorothea*, *Alden Besse*, and *Cyclone* (Hossack shoals), in order to search for them, a bank (*Vereker bank*) was struck, lying about 45 miles north-westward of Pratas Island :—

This bank of coral and shells, with a least depth found of 39 fathoms, is circular in shape, with a diameter, within the 100-fathoms line, of about 8 miles.

Position of 39 fathoms (situated about two miles westward of the centre of the bank), lat.  $21^{\circ} 5'$  N., long.  $115^{\circ} 59'$  E.

CAUTION.—As the examination of this bank only extended over two days, and the bank is of large area, it cannot be considered certain that no small dangerous patch exists. Currents are strong and variable in the locality, and it is by no means improbable that the positions given by the *Dorothea* and *Alden Besse*, which agree in latitude with that of Vereker bank, may be many miles in error in longitude.

Until thoroughly searched, this bank should therefore be regarded as a danger.

No indication of shoaling was found near the Hossack shoal or *Dorothea*, but bad weather prevented a complete search being made.

Kwas hill summit in line with south extreme of Basing island.

AFRICA—EAST COAST.

MOZAMBIQUE CHANNEL.

*Amended particulars of St. Lazarus Bank.*

THE following Notice to Mariners (No. 178 of 1889) issued by the British Admiralty is republished :—

An error of five miles having crept into the latitudes quoted in former Notice to Mariners on this subject, No. 107 of 1889, the amended particulars are herein republished, and the former Notice is hereby cancelled.

The following information relating to St. Lazarus bank has been received from Commander T. F. Pullen, being the result of an examination made by H. M. Surveying Vessel *Stork* and her boats extending over six days, from 3rd to 8th February 1889 :—

The area of the bank within the depths of 100 fathoms is of oblong shape, 11 miles long north and south, with an extreme breadth of 6 miles, and is included between the parallels of  $12^{\circ} 7'$  and  $12^{\circ} 17'$  S., and long.  $41^{\circ} 20'$  and  $41^{\circ} 26\frac{1}{2}'$  E.

The general depth was found to be under 20 fathoms, the nature of the bottom being sand and coral. The shoalest part within the depth of 10 fathoms is near the northern end of the bank, and is about 4 miles long in a north-west direction and 2 miles broad; the least depth found of  $3\frac{1}{2}$  fathoms being confined to a small coral patch in lat.  $12^{\circ} 8'S.$ , long.  $41^{\circ} 21\frac{1}{2}'$  E.

Beyond the depth of 100 fathoms the soundings increase rapidly; at 6 miles north-east of the shoalest part, 1080 fathoms were found, and at 14 and 25 miles eastward of the shoal part 1308 and 1131 fathoms were obtained.

A regular tide was observed when at anchor on the bank, the flood setting E.S.E. about 4 hours, and the ebb W.N.W. about 7 hours, with about half an hour slack water; the strength at springs was 2 knots; the rise and fall approximately 12 feet. It is probable that at a little distance from the bank, and when out of the influence of the tidal streams that exist upon it, the currents vary in direction and velocity at different times of the year.

Fish in abundance were caught on the bank.

Having regard to the nature of this examination as detailed by Commander Pullen, it is considered that the several shoal soundings hitherto reported on or near St. Lazarus bank fall within the area assigned to it by H. M. S. *Stork*.

(The bearings are Magnetic. Variation  $12^{\circ}$  Westerly in 1889.)

This cancels Notice to Mariners issued by this Office No. 42, dated 11th May 1889.

### REVISED STANDARDS FOR 'GIRLS' SCHOOLS AND ZENANAS.

THE Educational Conference of 1887, in preparing revised standards for girls' schools and zenanas, recommended that "at the outset, 20 lower primary, 10 upper primary, and 5 middle scholarships for girls, should be created at a yearly cost of Rs. 780, and be thrown open to competition for Calcutta and Suburbs," and that "the number of girls' scholarships for the districts of Bengal should be the subject of a future reference to Government by the Director of Public Instruction." The revised standards were sanctioned in the Government Resolution of the 13th September 1887; and Government subsequently sanctioned an expenditure of Rs. 780 a year for scholarships to girls in Calcutta and its neighbourhood, where girls' schools of an advanced type are most numerous. It has not yet, however, been possible to make similar provision for scholarships in other districts of Bengal, as recommended by the Conference, and the compulsory introduction of the new standards into those districts has necessarily been postponed. But as the new standards are a manifest improvement on the old, any school for girls that desires to adopt them may do so on the understanding that, until further orders, no scholarships are to be awarded on those standards. Inspectors of Schools are therefore authorized, should the need arise, to hold examinations in the revised standards and to issue certificates on the result. Those schools for girls that do not adopt the new standards may continue to compete in common with those for boys for the scholarships open to all. The Inspectors are requested to notice in their annual reports how far the new standards are adopted.

Director of Public Instruction.

- (a) The pecuniary resources, permanent and temporary, on which the school will depend for support.
- (b) The proposed monthly expenditure in detail.
- (c) The average number of pupils to be instructed.
- (d) The persons who are to form the Committee of Management.
- (e) The class of school and course of instruction; the selection to be made from classes and standards recognised by the Department.
- (f) The number and salaries of the teachers in detail.
- (g) The fees to be charged in each class.
- (h) The amount of aid sought.
- (i) The existence of other schools of all classes within a distance of four miles.

33. In disposing of an application for a grant-in-aid, the Board shall consider whether the school supplies a want in the locality; whether the teaching staff is competent and adequate; how far its resources, inclusive of fees, are adequate to meet its necessary expenditure; whether the fees charged are reasonable; and whether the funds at the disposal of the Board are sufficient to meet the application.

34. The Board may, for reasonable cause to be duly recorded, either sanction the grant in whole or in part, or refuse it altogether. The Board shall send a copy of its order to the Inspector, and another to the applicant. Should the applicant be dissatisfied with the Board's order, he may appeal to the Inspector, who may, if he thinks fit, follow the procedure prescribed in rules 23 and 24. Should the Inspector be dissatisfied with the Board's order, he may follow the procedure laid down in rule 24.

35. The sanction to a grant shall be conveyed in Form B, appended to these rules, and on the conditions therein stated.

36. When a grant is sanctioned, the managers shall forward to the Board an agreement on stamped paper to the effect that they will conduct the school in accordance with the conditions of the grant.

37. Grants shall ordinarily be sanctioned for a period of three years, but the Board may, at any time during its currency, for reasons specified in writing, revise a grant. Against such a revision the same procedure shall be observed as is laid down in rule 34.

38. A grant shall ordinarily be reduced on renewal, when this can be done without serious loss of efficiency. Notice of any proposed reduction shall in all cases be given to the managers, who shall be allowed an opportunity of stating any objection that they may have to the reduction. Against any reduction that the Board may make, the same procedure shall be observed as is laid down in rule 34.

39. Leave to teachers of aided schools shall be granted by the managers in accordance with the rules of the Department. Notice of any leave given by the managers to the teachers shall be forwarded to the Board with the next grant-in aid bill; and the Board may make any objection to the leave. In any such case, the decision of the Inspector shall be final. A monthly statement of the leave granted to aided school teachers drawing Rs. 20 a month and upwards should be forwarded to the Inspector by the Board.

40. The managers of a school shall fix the list of holidays to be observed in the school, subject to the limitation of 60 days exclusive of Sundays. They shall submit the list to the Board not later than the 1st of December next preceding the year for which the list is intended. The Board shall forward copies of the lists of holidays for all schools in the district to the Deputy Inspector on or before the 1st January.

#### Special Grants.

41. Grants may be given to managers of schools in aid—

- (a) of erecting, enlarging, or furnishing school buildings;
- (b) of executing extensive repairs; and
- (c) in special cases, of paying off debts incurred in erecting or enlarging school buildings.

[NOTE.—Expenditure in the purchase of buildings shall be treated as expenditure in the erection of buildings.]

42. Except in the case provided in the foregoing rule, no grant shall be made in consideration of former expenditure on school buildings.

43. No building grant shall be sanctioned unless the site, plans, estimates, specifications, title and trust-deeds are approved by the Inspector.

44. The trust-deed shall declare the building to be granted in trust for school purposes only. It shall also provide for the legal ownership of the premises, for the proper maintenance of the building, and for the inspection and management of the school.

\* [NOTE.—This rule does not preclude the managers from using the building for other purposes when not required for the purposes of the school.]

45. No grant shall be finally sanctioned until a certificate is received from the managers setting forth that the funds in their hands will, when added to the grant, be sufficient to meet all claims and to close the account.

46. Advances shall be made from time to time out of the sanctioned grant, on receipt of a report from the Board's Engineer, that the work is proceeding satisfactorily.

47. The grant shall not be paid in full until—

- (1) A report is received from the Board's Engineer that the building is satisfactorily completed;
- (2) The trust-deed is duly registered and a copy lodged with the Board.

48. If the total amount of the building grant does not exceed Rs. 500, and the building is, in the opinion of the Inspector, of such a description that it is not worth while requiring the execution of a trust-deed, the Board shall accept from the managers a written agreement on stamped paper engaging to maintain the building in proper repair for ten years.

49. Loans may also be made to managers of schools for the erection of school buildings. The amount of such loans shall generally be limited to the amount of any grant claimable under rules 29 and 30. The building shall be mortgaged to the Board as a guarantee for the repayment of the loan, and a term shall be fixed within which the loan is to be repaid. Interest at a rate not exceeding 4 per cent. may, if necessary be charged.

SECTION IV.—(C) *Primary schools receiving stipends or earning rewards from a Board.*

50. The Board shall not interfere in the local management of primary schools not directly managed and maintained by it.

51. Primary schools receiving aid from a Board may receive it in the form of fixed stipends or of payment by results. It shall be the general policy of the Board to replace the system of fixed stipends by that of payment by results, except in backward parts of the district, and in schools for aborigines or low-castes, girls' schools, and night schools for adults. No addition shall be made to the list of stipendiary schools without the sanction of the Director of Public Instruction.

52. The Board shall, in consultation with the Inspector, determine the rates of stipends payable to teachers of stipendiary schools, in accordance with rules prescribed from time to time by the Director of Public Instruction.

53. The Board shall be liable for the payment of the stipends of such stipendiary teachers of primary schools as are sent under its orders for instruction in training schools.

54. The Board shall grant rewards to teachers and pupils of other primary schools within the district on the result of periodical examinations, and in accordance with rules prescribed or approved from time to time by the Director of Public Instruction.

Provided—

(1) that no rewards shall be given under the rules in this section to teachers of schools directly managed by a Board, or of these schools receiving grants-in-aid under Section III.

(2) that rewards to pupils, other than girls, shall not be given in money, but only in books, maps, or other articles that may be useful to them in prosecuting their studies. Books given as rewards shall be chosen from a list approved by the Director of Public Instruction.

55. Arrangements for such examinations, including the appointment of examiners where necessary, shall be made by the Board in consultation with the Deputy Inspector.

56. All payments and rewards to teachers and pupils, to be granted on the result of such examinations, shall be sanctioned by the Board on the report of the Sub-Inspector, confirmed by the Deputy Inspector.

57. Primary schools shall be regularly inspected *in situ*.

SECTION V.—(D) *Other schools.*

66. Every Union school shall be liable to inspection and examination by the officers named in rule 5, as well as by the members of the Union Committee.

67. Nothing in these rules shall preclude the establishment and maintenance of primary schools within the Union by private persons or associations; and the teachers of all such schools may, with the sanction of the Union Committee, present their pupils at all examinations for rewards and grants payable by the District or Local Board to the teachers and pupils of primary schools. It shall be the duty of the Union Committee to direct the teachers of such schools to attend with their pupils at any other examinations and gatherings that may be from time to time ordered by the District or Local Board or by the Deputy Inspector.

74. All lower primary scholarships shall be awarded by the District Board in consultation with the Deputy Inspector. No candidate who has completed the age of 11 years shall be eligible for a scholarship, and not more than one scholarship shall be awarded to the same school in any one year. Should a difference of opinion arise between the Board and the Deputy Inspector regarding the award of scholarships, the matter shall be referred to the District Magistrate, whose decision shall be final, unless a question of principle be involved, in which case the Inspector may, if he sees fit, follow the procedure laid down in rule 24. A list of the scholars elected shall be forwarded to the Inspector. Scholarship bills will be passed by the Board.

78. The Board shall be furnished annually by the Inspector with an abstract of the results of the upper primary and middle scholarship examinations regarding the schools with which the Board is concerned.

#### SECTION X.—*Sub-Inspectors.*

79. Subject to the veto of the Inspector, Sub-Inspectors shall be appointed by the Board. 85. The Director of Public Instruction shall be competent to transfer Sub-Inspectors from one district to another with the consent of the Boards concerned. In such cases the transit pay and travelling allowances of each Sub-Inspector shall be paid by the Board of the district to which he is transferred.

86. Sub-Inspectors, whose services have been or may be transferred from the Department to a District Board, will be eligible for promotion in the graded list of the Department. The promotions of such transferred officers from class to class will be made by the Director of Public Instruction on the recommendation of the Inspector.

87. Sub-Inspectors, who at the time of their transfer to District Boards were rendering qualifying service under the Civil Service Regulations, will continue to render qualifying service after their transfer.

88. Sub-Inspectors referred to in the two last preceding rules shall not be dismissed or degraded, except with the consent of the Director of Public Instruction. If a Sub-Inspector is suspended by the Board he may appeal to the Director of Public Instruction through the Inspector.

89. The Board shall forward to the Inspector on the 1st of April of each year the service books of the Sub-Inspectors referred to in the three preceding rules for his information and for countersignature.

90. Sub-Inspectors appointed by the Board may be suspended, or degraded, or otherwise punished by it.

92. The primary duties of Sub-Inspectors shall be to inspect schools; and no other duties shall be laid upon them by the Board without the sanction of Government. Application for such sanction shall be forwarded to the Director of Public Instruction through the Inspector.

Any assistance that the Inspector or the Deputy Inspector may require in compiling the returns shall be furnished by the Sub-Inspectors under the Board. The Board shall also submit to the Magistrate, within the time prescribed by the Department, a report of its educational operations. It shall contain such particulars as may from time to time be required by the Department. The Magistrate shall, on or before the 1st May, forward the Board's report to the Inspector, who shall submit it to the Director of Public Instruction with his remarks, together with his own report on education in the circle under his charge.

98. In a Resolution recorded by this Government on the 22nd April, 1889, it was proposed to introduce experimentally, in the Burdwan Division, the system of payment of rent by postal money-orders under the provisions of section 54(2) of the Bengal Tenancy Act, under rules of which a draft was published in the *Calcutta Gazette* of the 24th April 1889 for general information and criticism. The Lieutenant-Governor having considered with care the suggestions received in reply to that invitation, is pleased to issue the amended rules printed below for general guidance.

2. Objection having been taken to the first of these rules on the ground that it does not declare specifically that payment of rent through the post-office must be made in accordance with the regulations of the Postal Department, it may be stated that, according to the purport of the Act, as interpreted by the legal advisers of Government, it is impossible under the section quoted to do more than simply to declare, as has been done, that postal money-orders must be received in payment of rent. The issue of such orders will be modified from time to time by the executive regulations of the Postal Department.

3. The form of receipt prescribed by the rule under section 56(3) of the Act has been modified in general accordance with the suggestions of the British Indian Association.

*Amended particulars of St. Lazarus Bank.*

The following Notice to Mariners (No. 178 of 1889) issued by the British Admiralty is republished:—

An error of five miles having crept into the latitudes quoted in former Notice to Mariners on this subject, No. 107 of 1889, the amended particulars are herein republished, and the former Notice is hereby cancelled.

The following information relating to St. Lazarus bank has been received from Commander T. F. Pullen, being the result of an examination made by H. M. Surveying Vessel *Stork* and her boats extending over six days, from 3rd to 8th February 1889:—

The area of the bank within the depths of 100 fathoms is of oblong shape, 11 miles long north and south, with an extreme breadth of 6 miles, and is included between the parallels of  $12^{\circ} 7'$  and  $12^{\circ} 17'$  S., and long.  $41^{\circ} 20'$  and  $41^{\circ} 26\frac{1}{2}'$  E.

The general depth was found to be under 20 fathoms, the nature of the bottom being sand and coral. The shoalest part within the depth of 10 fathoms is near the northern end of the bank, and is about 4 miles long in a north-west direction and 2 miles broad; the least depth found of  $8\frac{1}{2}$  fathoms being confined to a small coral patch in lat.  $12^{\circ} 8'$  S., long.  $41^{\circ} 21\frac{1}{2}'$  E.

Beyond the depth of 100 fathoms the soundings increase rapidly; at 6 miles north-east of the shoalest part, 1080 fathoms were found, and at 14 and 25 miles eastward of the shoal part 1308 and 1181 fathoms were obtained.

A regular tide was observed when at anchor on the bank, the flood setting E.S.E. about 4 hours, and the ebb W.N.W. about 7 hours, with about half an hour slack water; the strength of springs was 2 knots; the rise and fall approximately 12 feet. It is probable that at a little distance from the bank, and when out of the influence of the tidal streams that exist upon it, the currents vary in direction and velocity at different times of the year.

Fish in abundance were caught on the bank.

Having regard to the nature of this examination as detailed by Commander Pullen, it is considered that the several shoal soundings hitherto reported on or near St. Lazarus bank fall within the area assigned to it by H. M. S. *Stork*.

(The bearings are Magnetic. Variation  $12^{\circ}$  Westerly in 1889.)

- I.—The Commander of every vessel, including buggalows or other native craft, arriving from Bombay, shall, before entering the harbour, indicate by signal the port from which such vessel has come.
- II.—Such Commander shall not, except as hereinafter provided, allow any communication, either with the pilot boat, except orally, or with the shore, or with any other vessel or boat in the harbour.
- III.—Immediately on arrival, the Commander shall cause the letter R of the Commercial Signal Code to be hoisted, and shall keep the said flag flying during his stay in port, or until authorized by the Health Officer to haul it down. If communication with the shore is not desired, the vessel shall anchor at such place as may be pointed out by the Port authorities, having regard to the season of the year. If communication with the shore is desired, the Health Officer shall go alongside the vessel, and, after all necessary enquiries, shall direct the Commander to take the vessel to the quarantine anchorage duly appointed and notified in that behalf by the Resident, there to remain for a period of seven days from the date of arrival, or for the shorter period prescribed in Rule IV, and undergo disinfection, which should apply as well to crew, passengers, effects, and susceptible goods.
- IV.—If the Health Officer of the Port has sufficient evidence that no cases of a suspicious nature have taken place on board during the voyage, and if the vessel is besides in good hygienic condition, the duration of the quarantine will be diminished according to the following scale:—

After eight days of voyage	...	...	six days of quarantine.
Do. nine ditto	...	...	five ditto.

Do. twelve ditto	...	...	two ditto.
Do. thirteen ditto and upwards	...	...	twenty-four hours of quarantine.

- V.—If during the period a vessel is at the quarantine anchorage aforesaid, any case or cases of cholera should occur on board, the said vessel shall remain in quarantine for a period of seven days from the date of the last case occurring, and be subject to all the prohibitions provided for in Rule III.
- VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Resident as places of quarantine, there to remain for a period of seven days. If a case of cholera occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.
- VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.
- VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine to be subsequently removed by members of their crews.
- IX.—All vessels arriving at Aden and Perim, which may have communicated with vessels coming from Bombay, shall be subjected to the same quarantine as vessels arriving at Aden and Perim from that Port.

previous sanction of the Governor-General in Council: they have effect from the 20th instant in the Ports of Aden and Perim and the Somali Coast as a temporary measure:—

- I.—The Commander of every vessel, including buggalows or other native craft, arriving from the Coast of Assaye, between Heit and Hoheia, shall, before entering the harbour, indicate by signal the port from which such vessel has come.
- II.—Such Commander shall not, except as hereinafter provided, allow any communication, either with the pilot boat, except orally, or with the shore, or with any other vessel or boat in the harbour.
- III.—Immediately on arrival, the Commander shall cause the letter R of the Commercial Signal Code to be hoisted, and shall keep the said flag flying during his stay in port, or until authorized by the Health Officer to haul it down. If communication with the shore is not desired, the vessel shall anchor at such place as may be pointed out by the Port authorities, having regard to the season of the year. If communication with the shore is desired, the Health Officer shall go alongside the vessel, and, after all necessary enquiries, shall direct the Commander to take the vessel to the quarantine anchorage duly appointed and notified in that behalf by the Resident, there to remain for a period of seven days from the date of arrival, or for the shorter period prescribed in Rule IV, and undergo disinfection, which should apply as well to crew, passengers, effects, and susceptible goods.
- IV.—If the Health Officer of the Port has sufficient evidence that no cases of a suspicious nature have taken place on board during the voyage, and if the vessel is besides in good hygienic condition, the duration of the quarantine will be diminished according to the following scale:—
 

After eight days of voyage	...	...	six days of quarantine.
Do. nine ditto	...	...	five ditto.

- VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Resident as places of quarantine, there to remain for a period of seven days. If a case of cholera occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.
- VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.
- VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine to be subsequently removed by members of their crews.
